Frequently Asked Questions and Helpful Information

- One bucket of mulch is 3/4 of a cubic yard or 20.2 cubic feet
- One bucket of dirt or rock is 6/10 of a cubic yard or 16.2 cubic feet
- All prices listed have sales tax included
- Cash or check only
- Please make checks payable to Cline's Landscapes
- Large frame ½ ton trucks with a long bed can hold 4-5 loader buckets of mulch and 1 bucket of heavy material
- Large frame ½ ton trucks with a short bed can hold 3 loader buckets of mulch and 1 bucket of heavy material
- Small frame trucks with a long bed can hold 3 loader buckets of mulch and 1 bucket of heavy material
- Small frame trucks with a short bed can hold 2 loader buckets of mulch and 1 bucket of heavy material
- How much mulch do you need? Measure the size of the area you are going to cover and then contact us and we can compute the amount you need. (length x width x depth)
- New mulch beds need a depth of 3-4 inches of organic material. Non-organic mulch beds need a depth of 2 inches
- Termites DO NOT feed on mulch per the information from the Extension Forest Resources and NC State University. They require solid wood as a food source, such as a buried piece of lumbar
- We can haul a maximum of 21 loader buckets of organic material or 9 loader buckets of heavy material such as stone and dirt
- Deliveries are made inside curb lines on lots at the customers risk only
- Spreading of gravel with a dump truck is not a service you are charged for
- You can also contact us by email at doug@clineslandscapes.com
- **Pricing is subject to change based on product availability**
- **Prices Effective January 2019**
